### Information About the Service

#### What is the service?

nbn® Enterprise Ethernet is a Layer 2 carrier-grade fibre service that delivers bandwidth with the highest speed, performance and reliability across the nbn® ethernet access network. nbn® Enterprise Ethernet enables a symmetrical bandwidth profile with traffic prioritisation, including high Class of Service (CoS). High CoS provides a committed 1:1 information rate ideal for time-sensitive applications and guaranteed bandwidth 24/7. Availability will depend on location.

#### Where is it available?

Available as an upgrade to businesses within nbn's® fixed line footprint, your business can access full end- to-end fibre installed from the Fibre Access Node (FAN) back to your site with nbn® Enterprise Ethernet. However, a fibre build contribution may be applicable. Fixed Wireless and Satellite customers may be able to access this service following a manual service qualification check, call our Enterprise Team for more information.

#### What do I need to access the service?

Regardless of the technology type you currently have in place, nbn® will need to install a Business Network Termination Device (BNTD). You will also need an NBN- ready modem/router (see "equipment fees" on next page). Where applicable, nbn® will need to install equipment on the outside and inside (near a power point) of your premises. A person over 18 will need to be at the address for this appointment.

## NBN Enterprise Ethernet High Cos (36 month term)

### **Set-up fee**

There will be a \$0 setup fee. Also, a fibre build contribution may be applicable.

### **Equipment fees**

You may provide your own modem/router or purchase an enterprise grade modem/router from Connected 360. Other hardware is available including standard grade modem/routers, switches, and access points. Call our Team for more information.

### **Fibre build contribution**

If a fibre build contribution is applicable this can be advised by nbn® before placing your order, or during the planning phase of the order.

### **Other possible costs**

If you bundle your broadband service with a phone service or any of our bolt-on features, your monthly costs may be different. For full terms and conditions on a phone service, please see the relevant critical information summary and for details on bolt-on features, speak to our staff.

### **Service relocations:**

- Service will need to be available at the new location.
- Early termination fee will be applied unless a new contract is signed for new location.
- Customer is liable for all set-up costs and fibre build contribution at new location.
- Call us to discuss options
